

Validated Training Course Materials for Teachers' Professional Development

<http://cpdlab.eun.org> | <http://fcl.eun.org>

The CPDLab project is partly financed by the European Commission's Lifelong Learning Programme

What? Three validated and open teacher training courses:

- **Interactive Whiteboards (IWB):** the pedagogical use of IWBs in the interactive classroom;
- **eSafety (eS):** for teachers and students in the classroom, in the school and beyond;
- **Future Classroom Scenarios (FCS):** teaching and learning activities for the future classroom.

For whom?

The courses are aimed at secondary school teachers. The course materials are designed to be delivered by expert trainers, e.g. teachers trainers (individuals and organisations), teacher associations and local authorities concerned about their teachers' professional development.

Why? All courses are:

- **Validated:** Designed and tested by a pan-European team of experts and teachers from Finland, Norway, Italy, and Portugal, and piloted with teachers from across Europe.
- **Modular:** Flexible course structure to pick and choose from modules according to local priorities.
- **Practical:** Lots of practical activities and ideas for the teacher in the classroom.
- **Free:** All content is licensed under a Creative Commons Attribution – Share Alike 3.0 Unported License, allowing commercial use. The content is in English, open to be translated and localised.
- **Complete:** Designed to be led by an expert trainer, with a comprehensive Trainer Guide and support content for each course.

Where?

Download the course contents at: <http://cpdlab.eun.org>

CPDLab course outlines

The outlines show the five-day courses delivered in summer 2013 to teachers receiving Comenius in-service training grant. Each course is modular, with the flexibility to select different modules according to local needs and priorities.

Interactive Whiteboards

	Day 1	Day 2	Day 3	Day 4	Day 5	
Me and my school	IWB: knowledge, skills and understanding	IWB in your subject area, and Assessment	Student involvement in the Lessons, and Beyond	Resource Creation, Communication and Collaboration	Planning, presentation and delivery	Me and my school
	IWB: Knowledge, Skills and Understanding (module 1i)	IWB in your subject area – tips and resources (module 2)	Collaboration and: 1) Presentation 2) Differentiation (module 4)	Resource Creation (module 5)	Planning Presentation and Delivery (module 7)	
	IWB skills audit	Knowledge and skills	Subject Specific Ideas and Assessment	Student Involvement and Collaboration	Resources Creation	Presentation and delivery
	Exploring online communities, and resources (module 1ii)	Assessment using interactive technology in the classroom (module 3)	Collaboration and: 3) Social Interaction (module 4)	Communication and Collaboration beyond the classroom (module 6)	Planning, Presentation and Delivery (module 7)	

eSafety

	Day 1	Day 2	Day 3	Day 4	Day 5	
Me and my school	eSafety in the 21st century	eSafety in teaching and learning	Critical thinking and reflection	Practical approaches to take forward	An eSafety Programme for your school	Me and my school
	eSafety in your school and classroom (module 1)	eSafety skills: Digital Citizenship (module 3)	eSafety and appropriate use: Digital Literacy (module 5)	Practical approaches to eSafety in the classroom (module 7)	A whole-school eSafety Programme (module 9)	
	Discuss: - issues - solutions	Theory and practice	Skills and tools	Reflection and critical thinking	Our school's eSafety Programme	
	eSafety for young people and teachers (module 2)	eSafety Management: Personal Safety & Well-being (module 4)	Addressing inappropriate use: cyberbullying and sexting (module 6)	eSafety across the school curriculum and beyond (module 8)	eSafety action planning (module 10)	

Future Classroom Scenarios

	Day 1	Day 2	Day 3	Day 4	Day 5	
Me and my school	The Future is here	Imagine your Future	Tools for the future	Learning Stories and Activities	Future School Practices	Me and my school
	Introduction (module 1)	Educational landscape in the future (module 3)	Tools for Future Classroom Scenarios (module 5)	Different Educational Settings (module 7)	Composing Learning Stories and Activities (module 9)	
	2 Videos: - Me as an educator - My teaching environment	Video of work, competences and learning in future	Developing Scenarios	Developing the Learning story	Future School Practices	
	The Future Classroom and a foresight approach (module 2)	Working with scenarios (module 4)	My Learning Story (module 6)	Learning Activities and Design Challenges (module 8)	Conclusions (module 10)	

The courses have been developed in the framework of EC-funded CPDLab project (Grant agreement 2011-3641/001-001), coordinated by European Schoolnet and including the following partners: INDIRE (Italy), Portuguese Ministry of Education and Science, Finnish National Board of Education, the Norwegian Centre for ICT in Education, and the University of Oulu (Finland). The content of this document is the sole responsibility of the consortium members and it does not represent the opinion of the European Commission and the Commission is not responsible for any use that might be made of information contained herein.

Interested in training opportunities at the Future Classroom Lab?

European Schoolnet's Future Classroom Lab, a reconfigurable training space based in Brussels, provides professional development for today's teaching challenges and the classrooms of the future.
