Curriculum

Promethean Professional Development Curriculum

Here you will find a range of content that supports teachers and educators.

Under Thought Leadership you will find material which explains the educational thinking which underpins our solutions. The technology section aims to provide a strategic understanding of the benefits our technologies deliver. The PPDC also includes the latest research both external material as well as material commissioned by Promethean. Finally the Support section provides manuals as well as guidance on the best use of our solutions in the classroom.

Tutorials for ActivInspire with over 60 recordings explaining the key features.

Connect Learning TODAY

A Free Professional Learning Community

Leading Change for Continuous Improvement

Sponsored by [Classflow](#)

Leading Change for Continuous Improvement is a professional learning community (PLC) that shows teachers how they can use technology to revolutionize the learning process and the entire learning environment. The community features free webinars and online discussions so teachers anywhere in the world can share ideas and resources on reinventing the classroom! As a member of the community you'll receive:

- Invitations to **free webinars** on new ideas and successful practices
- Free **CE certificates** for attending and viewing webinars
- Access to a **resource library** with webinar recordings, free resources, and quizzes to receive a free CE certificate for all past webinars
- **Online discussion forums** where you can connect and collaborate with other educators and experts

This unique combination of webinars presented by leading experts, combined with a social networking community, creates a new way for the education community to connect and work together to help move forward faster with innovative new ideas about gaming and learning.
