Why do I teach without textbooks...

Because I thought about my own online learning experiences and the activities that I liked.

Because I want to try something new.

Because I want them to learn how to learn.

Because I want them to use different sources of information.

Because I want to support their active learning.

What do I want to do as a foreign language teacher teaching online?

I want to create an environment in which my students communicate in the target language.

Online teaching enables individual approach and can be motivating if we let our students learn about things they’re interested in.
I want my students to need the language in order to communicate rather than giving them the language and define their communication.

Stay home! Stay safe!
