Introduction to the Novigado project
Key information

• Funding: Erasmus+ Programme Key Action 2 – Strategic Partnership (School Education – Cooperation for innovation and the exchange of good practices)
• Start time: 01-12-2019
• Duration: 30 months
• Website: http://fcl.eun.org/novigado
• Newsletter: http://eepurl.com/BnsQP
Project partners

- Fundacja Rozwoju Spoleczenstwa Wiedzy Think!, Poland (coordinator)
- European Schoolnet (EUN Partnership AISBL), Belgium
- Agrupamento de Escolas Fernando Casimiro Pereira da Silva, Portugal
- DG of Innovation and Educational Technologies, Ministry of National Education, Turkey
- Reseau CANOPE, France
- Lycee Pilote Innovant International, France
Background

• Schools and teachers are in a critical transition phase where the increasingly technology-rich learning environments and student-centric pedagogy are gaining ground in current practices.

• The focus of teaching is shifting from content to developing key competences.

• Schools and teachers are also directly impacted by developments about modernising or transforming physical learning environments.
Main objective

To support schools and related stakeholders in the transition from a conventional and teacher-centred classroom into teaching practices that promote active learning with the support of innovative learning environments and use of relevant ICT.
Objectives

• To provide evidence-based insight into active learning helping to understand the principles of active learning in innovative learning environment settings.

• To develop a training programme that will help schools to apply the principles of active learning in different learning space settings.

• To guide schools and teachers to audit their current learning spaces and guide them adapting them (e.g. at classroom level, at school level, using the 'learning lab' approach) also in a resource-effective way.

• To establish and animate a participative network (a community) of practitioners who engage in exchanges and professional development around teaching in innovative learning environments.

• To inquire into the effects, and perceived benefits and challenges of active learning approach.

• To provide policy-makers with recommendations on how to support schools or local authorities to adapt and design innovative learning environments.
Project roadmap

2020
- Active Learning Framework
- Online Scenario Tool

2021
- Capacity-building programme and school pilots
- Guidebook on Learning Space Innovations
- Pilot evaluation

2022
- Final Report & Recommendations
- MOOC
- Multiplier event

Online Community
How to take part?

Join the Novigado online community!

• **Repository of resources** including pedagogical videos, lesson plans, practices, etc.

• **Publications and case studies** to deepen your knowledge on active learning and innovative learning environments.

• **Live events** for professional development such as webinars, Teachmeets and live conversations.

• **Blog** with first-hand inspiring stories on implementing active learning and adapting learning spaces in schools.

• **An interactive map of innovative learning spaces** across Europe to get inspired.

**Targeted for:** Teachers and school staff across Europe, but also researchers, initial teacher educators, EdTech companies and policy-makers
