# Tablets at our school

# Access to resources

# Exchange and presentation

- information, pictures, movies, audio

# Creation and solution

- Movies
- Collage / posters
- Books
- Comics
- Presentations
- Websites

**Basil**  
*Ocimum basilicum*

*Where: Basil is a wonderful addition to a container garden. It thrives in well-drained soil, positioned in a sunny window*

*When: Basil is easy to sow from seed and is relatively quick to germinate. When planting from seed, plant seeds about six weeks before the last frost.*

**Usage**

- Cooking
- Basil pesto
- Calming the stomach

PIC-COLLAGE

# Investigation

- recording and sorting of information
- camera (photos, videos)
- mind maps (SimpleMind)
- writing and ordering ideas and solutions (Popplet)

# Implementation process

- Two teachers with relationship to ICT
- Got tablets, external training, space and support
- Two pilot classes with tablets (March 2015)
- Following year, two more classes with tablets + portable box of tablets
- Trainings for all teachers

# New teachers

- Several phases
- Basic usage of tablet (electronic marks, online links)
- Ready to use applications
- Preparation of own materials
- Courses
- Books
  
- Trainings 2-3 times per school year

# Before you start

- ICT equipment - the same for all pupils and teachers
- high quality wi-fi
- a skillful leader
- support - material, software, trainings, technical
- transition time for adaptation
- on-line safety trainings

# Thank you
