My school

- **Name** : Lycée Pilote Innovant International

- **Location** : *Futuroscope*, France

- **Size** : 500 students 60 teachers

- **Latest projects** :

  ⊙ Skills assessment since **2010**

  ⊙ 1-to-1 device since **2012**

  ⊙ FC Lab since **2016**

  ⊙ **Fair-like assessment** since **2018**

Project Assessment…
… some issues

Time consuming

Often boring in the long run

Hard to have everyone speak

One-time chance to showcase group skills

Formative or Sommative ?

Product or skills ?

Fair-like assessment…
What you need

- A large (open) space

- shared criteria

- A peer-assessment grid

- A teacher assessment grid

- 60 minutes

Peer assessment

FD 2019 Project - '"Optimize your Life with Graph Theory" - Student sheet

First Name :   Last Name :   Group Number :

Visited Group (shade your group's row)	TOPIC	Respect of the requirements* (see below) 1-2-3-4 pts	Teaching / explaining skills 1-2-3 pts	Creativity, Originality, Research 1-2-3 pts	Comments (justify your assessment)

4					

Fair-like assessment…
How it works

| PREPARATION | → | FIRST HALF | → | SECOND HALF | → | END |

Each group…
- ☑ has a product to share
- ☑ choose a space
- ☑ set up a stand for its presentation

- ☑ Half of the group stay and present / other half are visitors
- ☑ Visitors are free to walk and attend presentations with a criteria grid

- ☑ At half time, visitors and presenters swap.
- ☑ Second half runs the same way

- ☑ each student has presented several times
- ☑ each student has attended several presentations

Project Assessment…
Why it works

Time efficient

Visitors are free to come and go

Everyone speaks several times

Chances to improve and showcase skills

Formative / Sommative / Project assessment

Develop communication, critical thinking, self-regulation, creativity

assessment

Thank you !
