The Digital Future of Supporting Teachers' Career Long Learning

Making the Network for teaching
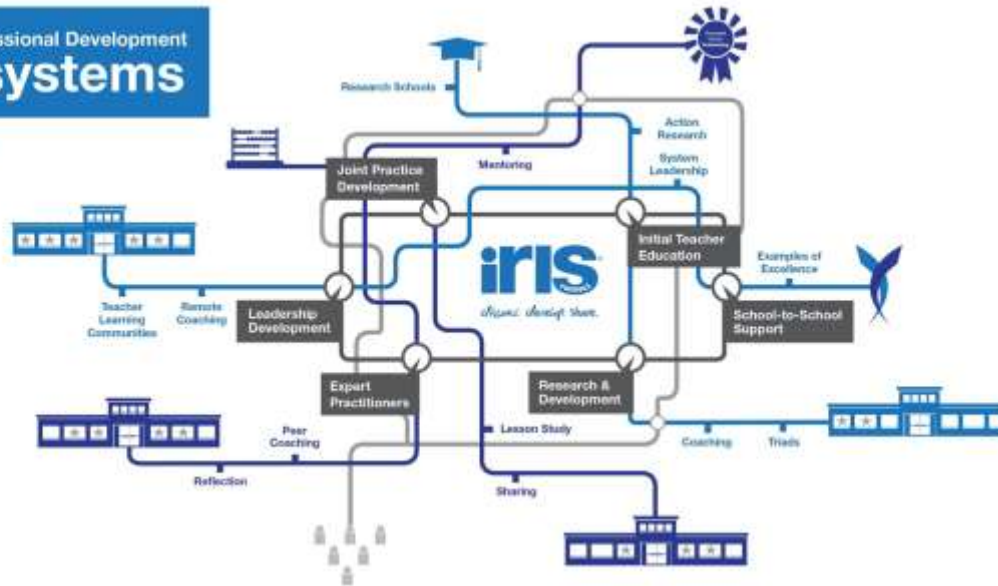

1. 2500 organizations
2. 40 countries
3. Over 100,000 teachers
4. 5000 videos per week
5. 200,000 hours of video on platform

Finding The Right Blend

Each stage is required, but is insufficient alone

Type of experience	What it does	Skill transfer
Presentation/Theory	Helps the learner become aware of a new skill, strategy or teaching practice	**5%**
PLUS+ **Modeling & Demonstration**	Provides the learner with a chance to see 'what it looks like'	**10%**
PLUS+ **Practice & Self Reflection**	Allows the learner to practice in a workshop or within a Professional Learning Community	**20%**
PLUS+ **Peer Feedback**	Helps the learner understand how to modify their performance to be more effective	**25%**
PLUS+ **Ongoing Collaboration**	Provides the learner with real time, job embedded coaching and mentoring in the context of planning learning goals, implementing strategies, evaluating progress	**90%**

Observation Challenges

1 **Expensive** and hard to scale

2 Subjective and **disruptive**

3 Challenges with **travel**

4 Associated with **performance management** and summative assessment

The video dilemma

**1** Ease of use

2 Security and privacy
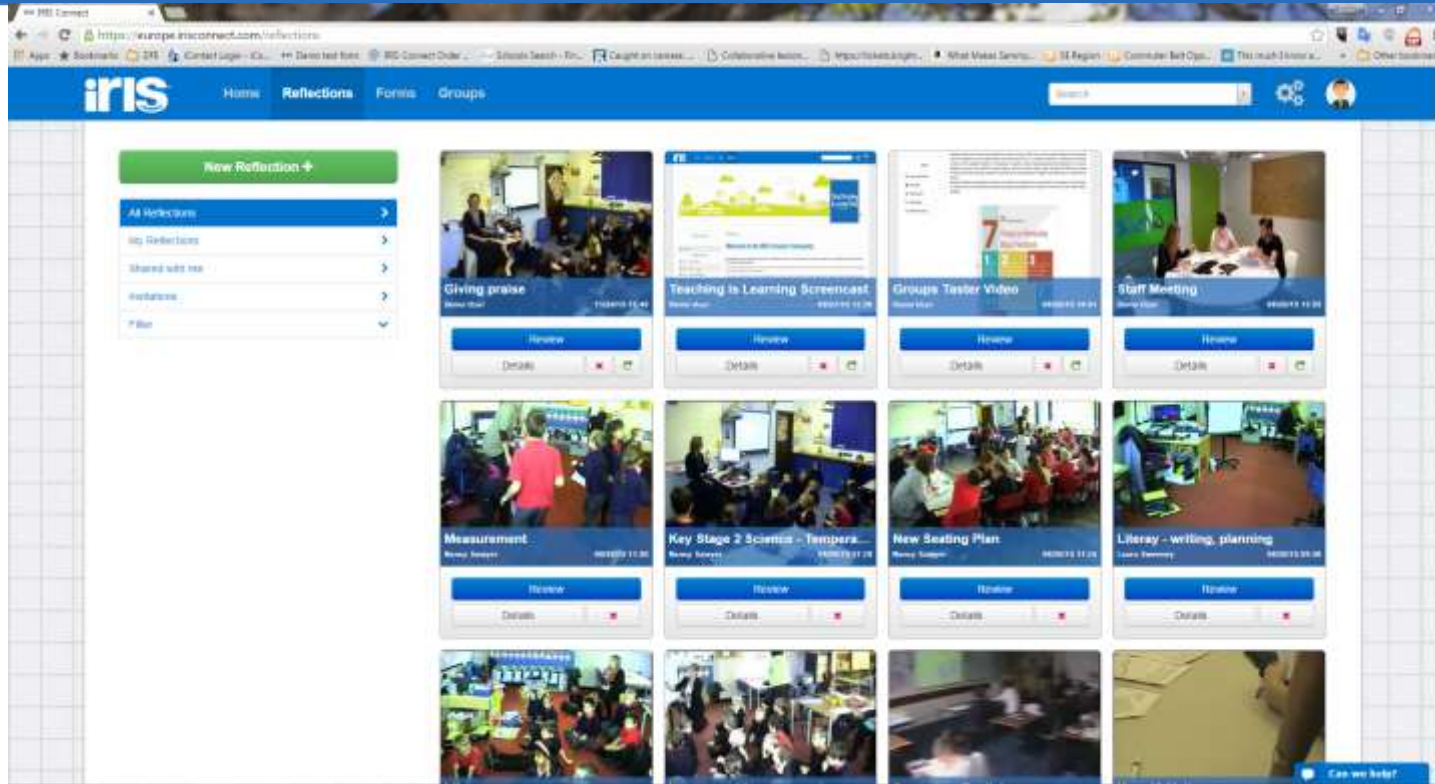

3 Storage

4 Giving just the tools is not enough

How the system works

Tools for analysis & collaboration

Video library of real teaching
